

7. Annual Planning Cycle

The Western School Division Board follows an annual planning cycle. This cycle represents key activities and processes regarding planning, consultation and reporting for divisional goals. Board agendas reflect this planning cycle.

Divisional goals are established through annual division planning sessions held prior to the commencement of the budget process. These priorities provide direction to division staff for budget development, division planning, and school planning.

The following diagram summarizes the planning cycle. Opportunity for direct community engagement is noted by the gold sections.
