

## ***Portables Approved***

***“We are pleased to announce that our request for two additional portables at École Morden Middle School for the next school year has been approved. We would like to thank the provincial government for responding to our immediate needs for space. We would also like to thank the active and passionate members of our community for expressing their positive support of the space needs of Western School Division. This means a lot for our students, staff, and community moving forward.”***
