

RRTVA tours are planned to allow for two learning outcomes:

1. Expose parents to the type of learning that occurs through technology education programs.
2. Allow parents to see first-hand what technology options are available to the Morden students and where they will be studying should they choose one of the options available through the RRTVA.

Contact names and phone numbers are listed at www.rrtva.ca

A proposed itinerary is listed below. All times are approximate.
